Patrick Lloyd handles patents in the electrical and electronics fields, as well as trade marks.

Patrick has over 30 years' experience in advising clients about patents and trade marks. He joined Reddie & Grose in 1987 after a short spell with another firm and became a partner in 1990.

Patrick's clients include a broad range of international companies and universities based in the UK and Europe, the USA and Japan. His specialities include assisting clients with invention spotting, drafting new applications, devising patent filing strategies for protection around the world, preparing infringement and validity opinions, and advising on competitor activities. He also handles trade mark matters, particularly in the financial sector.

A high point of Patrick's career includes participation in a series of international client meetings, scheduled with the aim of developing a client's patent portfolio and maximising enforcement and licensing opportunities. The experience continues to inform his day to day practice.

Patrick has spoken on patent and trade mark issues at numerous conferences and meetings around the world, and is a regular speaker on topics such as the protection of software and business method related inventions. He sits on the UK Chartered Institute of Patent Attorneys Computer Implemented Inventions Committee.

Managing Intellectual Property lists Patrick as one of its IP Stars:

The "responsive" team impresses clients and peers. "They provide very practical and cost-effective advice" says one client. "Patrick Lloyd is the most impressive."

When not in the office, Patrick plays the saxophone and oboe, and enjoys cricket and jazz.

Patrick's patent practice is mainly in the electrical and electronics fields, with a particular focus on electronic trading systems, computer implemented inventions and telecommunications. His background in Engineering Science also allows him to bring a deep understanding to patent applications in the areas of power systems, semiconductors, manufacturing technology, wind turbines and cleantech inventions.

Patrick has wide experience of all aspect of trade mark practice including the selection and clearance of new marks, worldwide registration, oppositions and dispute resolution.
